

2019 Link Crew & WEB Advanced Training Course*

This is a two day training open only to those who have previously attended the three-day Basic Training. The Advanced Training provides you with the opportunity to reflect upon your own program and gain tools and strategies to improve it.

Because everyone who goes to the Advanced Training has already attended the Basic Training, you will have the opportunity to share ideas with both new 1st year coordinators as well as learn from seasoned veterans who have had years of experience with the program.

At this course you will begin to see the potential of Link Crew and WEB at an even greater level. You will also attend workshops that sharpen the skill set needed for your program to continue to improve each year. You will leave the Advanced Training armed with new ideas and skills as well as the energy and motivation to kick off the next year of your program with excellence! The Advanced Training Course sells out quickly; if you are interested in attending we suggest you sign up early.
